

# CACTUS CLUB CAFÉ

Counter and Bar Cladding  
Vancouver, British Columbia, Canada

## 3DZ-151

Banker Wire 3DZ-151 architectural wire mesh provides the surface cladding for the popular Vancouver dining experience, The Cactus Club Café. This unique Vancouver original establishment chose to use the smoothness of the 3DZ-151 woven wire mesh pattern around their bar and cabinetry lending a unique and modern look to the café.
