

HERITAGE4CHARLOTTE

Sculpture for Charlotte-Douglas International Airport
Charlotte, North Carolina USA

L-80

The Banker Wire woven wire mesh adds the skin of texture to the plasma cut steel openings atop the art statues located at the Charlotte-Douglas International Airport, Charlotte, NC.

Carved Indiana limestone, stainless steel, bronze, LED fixtures, each column approximately 2'x2'x22'. Commissioned by the Arts and Science Council. Four limestone and steel columns carved with imagery drawn from the textile traditions of people from the area in Pre-Columbian times to the present. Nighttime illumination with color-changing LED fixtures. Lighting design by LightSHOW of Pasadena, CA.
