

ROSEVILLE PARK SIGNAGE

Park Signage
Roseville, Minnesota USA

F-48

The new, maintenance-free signage kiosk at Roseville Park in Roseville, Minnesota, features Banker Wire's F-48 stainless steel woven wire mesh. The flat-top architectural mesh is surrounded by a 4x8 foot frame with 4x4 inch aluminum posts. The sign was manufactured by Vacker Signs Inc., from their recently expanded line of upright exhibits using self supporting frames and pedestals.
