

# SPRINGHILL SUITES CORALVILLE

Cladding  
Coralville, Iowa, USA

## SZ-4

Springhill Suites by Marriot in Coralville, Iowa is a hotel that mixes business and leisure. Within walking distance of the Coral Ridge Mall and the Iowa Children's Museum, as well as located close to the University of Iowa, makes this hotel a convenient location for all visitors.

Banker Wire's SZ-4 woven wire mesh in a stainless steel and brass combination is used in this Springhill Suites hotel front desk. The beautiful pattern is striking against the backlit desk, the blue of the light creates an interesting color combination with the brass and stainless steel. As the time of day changes, there is a subtle shift in the appearance of the mesh as it reflects the sunlight or the interior lights of the lobby.
