

TOP OF THE MARKET RESTAURANT

Partitions/Sapce Dividers
San Diego, California, USA

M44-7

*Shown below in bronze,
standard mill finish*

The Fish Market, a casual dining chain of restaurants in California, recently opened a fine dining restaurant in San Diego. Top of the Market specializes in fine, top quality seafood, and sits next to the USS Midway Museum and has a stunning view of Coronado and Point Loma.

Inside the restaurant, Banker Wire's M44-7 wire mesh pattern in bronze is used as space dividers on the top of booths to add privacy and a sense of intimacy through the restaurant. M44-7 is a simple over-under pattern that uses four independent wires sharing the same crimp pocket. Thin, strong, and with a 34% open area, this unique pattern is a good choice as a space divider.
