

## 2010 ASA DECORATORS' SHOW HOUSE

Interior Window Shutter  
Atlanta, Georgia USA

SZ-2

Artist and Interior Design, Raymond Goins, made his show house debut with the 2010 Atlanta Symphony Association (ASA) Decorators' Show House in Atlanta. The show house bathroom featured his own "Horse" painting as well as an unexpected color palette with finishes not typically seen in Southern interiors.

An integral part of the bathroom was the custom stainless steel window shutter using Banker Wire's SZ-2 woven wire mesh. The unique window shutter allows light to filter through the shaped wire to set the mood of the room, but while still providing privacy for the bather.
