

NORTH CAROLINA A&T STATE UNIVERSITY

Mechanical Enclosure
Greensboro, North Carolina, USA

LPZ-54

At North Carolina A&T State University LPZ-54 is used as an enclosure to protect and also disguise the building's mechanical equipment from sight. Aluminum LPZ-54 was selected for its strength and durability as well as the unique aesthetic it provides to those passing by. As a pedestrian walks past the enclosure and the angle of sight changes, the mesh appears to change in opacity.
