

SUSHISAMBA

Cladding
London, United Kingdom

L-81

*Shown below in bronze,
standard mill finish*

SUSHISAMBA Covent Garden is located in the famed Opera Terrace atop the Market Building in London. This restaurant serves up Japanese, Brazilian, and Peruvian fare making it a hot spot in the local community. As bold as the food, the design of SUSHISAMBA is complemented by Banker Wire's L-81 in copper cladding the kitchen and food prep area.

L-81's large percent open area allows for the unique pattern of the black counter to come through. The warm lighting highlights the texture created by the layered of materials adding a chic and playful visual to the venue.
